

TSPC Elluminate Conference

August 19, 2010

Attendance:

FAMU: Saiyed Ahmad

FAU: Teresa Abaid, Maria Berenbaum, Helen Laurence

FCLA: Daniel Cromwell, Mary Ann O'Daniel, Jean Phillips

FSU: Annie Glerum, Tamara Weatherholt, Amy Weiss, Ruth Ziegler

FSU-L: Pat Bingham-Harper

FSU-M: Sarah Cohen

NCF: Tom Tharrington

UCF: Kim Montgomery

UF: Cathy Martyniak, Jimmie Lundgren, Betsy Simpson, Priscilla Williams

UF-L: Suzy Potter

UNF: Jeff Bowen, Susan Massey, Vicki Stanton

USF: Susan Heron

USF-H: Allison Howard

UWF: Esmer Brown, Debbie Sanders

Minutes of July 8, 2010 were approved.

Course Reserve for Statewide Collection Materials (Cathy):

- Draft proposal submitted by Cathy Martyniak. Two points of discussion: in the instance of second borrowing of an item for reserves at one institution, purchase is suggested. Should an out-of-print item be scanned instead of repeated borrowing? What about multiple borrowings years apart? (e.g. a professor teaches a class every third year and wants the same item on reserve each time.) Second point: although a scanned article from a bound periodical is preferred, may bound periodicals be borrowed if that is what the patron prefers? Cathy will take these concerns back to the committees working on this project. Approval given to the draft proposal with the TSPC's comments included.
- A volunteer with cataloging experience (not from UF or FSU) is needed on the Storage Cataloging and Discovery Advisory Group. Contact Cathy with questions or to express interest.

New Vice-Chairman for 2011/Chairman for 2012:

- Jeff Bowen was nominated and chosen by acclamation. He has agreed to serve as Vice Chair for 2011 with Betsy Simpson as Chair, and as Chair for 2012.

FCLA Report:

- Mary Ann: The exchange of Solr for Endeca has occurred and is working. Minor glitches are being addressed. Uborrow report will go to CSUL for approval to proceed. There is a question of whether ALEPH ILL or ILLiad will be used for the back end system. Single bib project merge specs are being fine-tuned.
- Daniel: FSU's OCLC reclamation project is continuing. OCLC has completed the matching process, and FCLA is reviewing some unresolved records for possible re-matching. Post-reclamation clean-up projects to follow.
- Jean: urges other libraries to get into the queue for the OCLC reclamation project. CSUL wants this to be accomplished, and the service is free at the present time.
- Mary Ann: Updates on authorities: backlog of LCA10 weekly updates continues to be loaded; subject & series projected to be caught up Oct. 2010; names projected to be caught up April 2011.
- Jean: Legislative update: debate about database access for high school students continues with no resolution. New discovery tools (e.g. Primo Central, Summon) are being discussed. Their possible impact on Single Bib and Uborrow needs to be investigated.

Shared Bib Pilot Project Report (Amy):

- The Committee is looking at the tag table to understand how records will display, and the readability of those records.
- There will be a conference call with Special Collections catalogers for feedback on preserving data unique to items in Special Collections.
- Multiple clean-up projects based on reports from FCLA are being completed.

TSPC Report to CSUL (Amy):

- There are two action items for CSUL: Approval of Jeff Bowen as incoming Vice Chair, and approval of the updated action plan.
- Discussion of the current draft of the action plan: it was agreed to remove points 1.5 and 1.7, and to change the language of 3.8 to read "pending other projects."
- It was also agreed to add the Single Bib Pilot Project to "Information Items."

260 Field Clean-up (Betsy):

- It would be possible for FCLA to do a system-wide correction of obsolete indicators.
- Approval given.

520 Dissertation Note Question (Priscilla):

- Would a formatted note provide consistency for the future? Potential benefit and maintenance issues remain unclear.
- The suggestion will be returned to the Authorities Subcommittee for possible revision.

MARC Standards Task Force Report (Sarah):

- Changes previously suggested by the TSPC have been incorporated.
- Issues regarding series tracing will be referred to the Authorities Subcommittee.
- Much discussion within the committee regarding catalog maintenance when an item is held by multiple libraries. TSPC feedback on Sec. 10-13 is solicited.
- Discussion: Redundancies need to be edited; NLM should be added to D.1; Issues concerning batch loading of vendor records need to be addressed; Issues regarding corrections to vendor records need to be addressed; Section numbering needs to be corrected.
- Resolution: although this document has been much improved, the TSPC would like to see further revisions before granting final approval.

Liaison and Subcommittee Reports:

- TSPC/OPAC Liaison (Jimmie): Report attached. No discussion.
- CPC: No report.
- Acquisitions Subcommittee (Vicki): Report attached. Not all participated in Object Code Project. Some libraries had their own system in use, and others don't use object codes at all.
- Authorities Subcommittee (Priscilla): Report attached. No discussion.
- Metadata Subcommittee: (Kim): Report attached. Wiki is currently being used as a brainstorming tool. More detailed comments will be made to the TSPC in the future.

Next Meeting: Sept. 9, 2010.

Meeting adjourned by Amy Weiss at 3:38 pm.

Minutes submitted by Patricia Bingham-Harper
