

Notes from Conference Call, 5 May 2008

Present: Bill, Gail, Michael, Selma

1. Ray's resignation – Discussion tabled for the time being. Group will think about the need for a replacement and possible candidates for discussion on the next call.
2. Priority lists from committees – Lists have been received from TSPC and PSPC and expected from CPC shortly (update: list received 6 May). It was decided that the priorities should include descriptive information for the directors. The FCLA inventory has not been received yet. Selma will check with Jim Corey about its status.
3. Single Sign-on presentation – Michael will be our TAG representative at the June meeting. Other members will send Michael material found about the topic and Shibboleth, one solution currently available. There wasn't as much information about SSO at the InterOp conference that Michael attended last week as he had hoped. The group will continue to investigate individually and share information. There was discussion about the current IT environment for SSO at each TAG member's institution.

Next conference call: 19 May 2008 at 2:00 p.m.
