

Meeting notes, CAGER, Dec. 2006

Attendees: Naomi Young; Emmett Denny; Helen Laurence; Mary Ann O'Daniel; Angela Randtke; Daniel Cromwell; Margo Menconi

There was brief discussion of the outcomes of the Metadata Summit. Much depends on whether the directors approve our recommendations.

The CAGER guidelines have been removed from the USF Web site. Jim Michael was going to ask that the USF Web manager restore them; he is not on the call and we don't know what he has heard, if anything. Mary Ann located several CAGER documents using the Internet Archive, and will refer them to Tennille for mounting on the FCLA Web. Everyone agreed that archiving future documents at FCLA will be safer.

Mary Ann asked that we consider moving the date of CAGER meetings. FCLA has another standing meeting on the first Tuesday, and FCLA must rearrange their schedule to attend. After some discussion, we decided that the first Thursday would work for us, and would be a good placement since TSPC meets the second Thursday of each month.

Naomi
