

University of Central Florida Libraries
Main Library
CSUL Shared Storage Facility Requirement
Preliminary Determination of Immediate Storage Needs
February 5, 2008

These materials, while still housed in the main library, are immediate candidates for off-site storage. Moving these materials offsite would free up space for collection growth, as well as reclaim space for patron use. UCF Libraries has recently received an estimate from a commercial offsite storage service to house and provide access to these materials. Cost represents the annual amount the University would spend if these materials were stored offsite in this fashion.

<u>Item Type</u>	<u>Volumes</u>	<u>Est. Linear Feet</u>	<u>Annual Cost</u>
Bound journals with licensed electronic access. (JSTOR, IEEE and ScienceDirect, Wiley, etc.)	80,000	12,667	\$30,901
Bound indexes and abstracts	50,000	10,000	<u>\$24,295</u>
		Total	\$55,296

Cost does not include possible one-time removal fee, nor does it include per item delivery fees.
